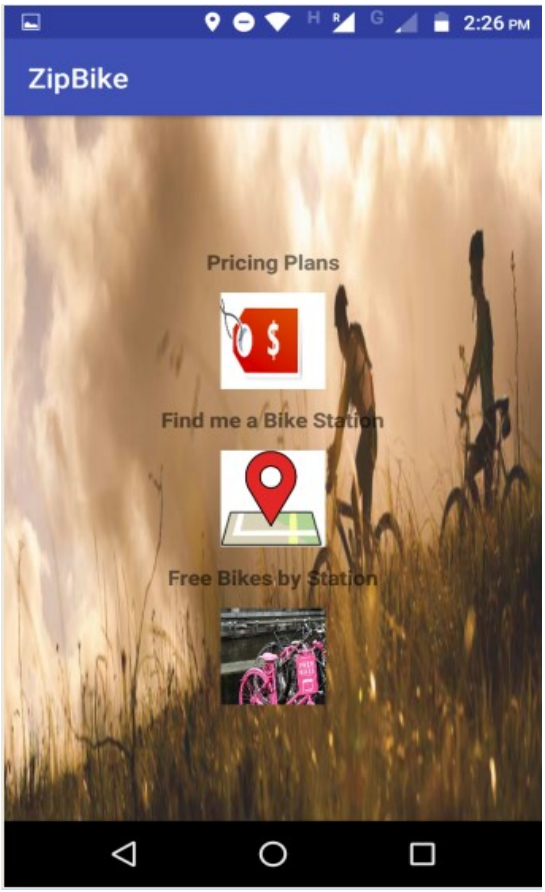
1. Install the APK for ZipBike.

2. This is the landing page of the app.

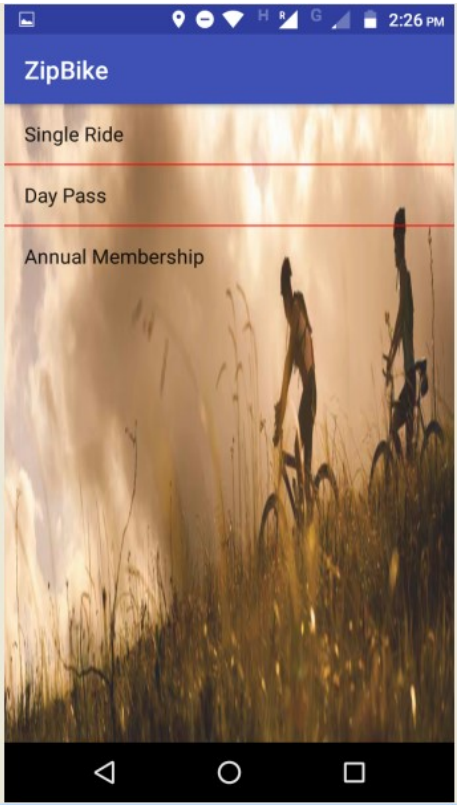
   To initiate booking click on the RIDE button



3. After clicking on the RIDE button, we will reach to this page, where we have 3 available options.

- Pricing Plans (to see the available price plans).
- Find me a bike station (to get 4 nearest bike hubs).
- Free bikes by station (to see the available bikes).

On clicking Pricing Plans:



4. On Clicking the Pricing Information Button
   you can see a list view with all the available pricing plans and clicking on any of the plan will lead you to another activity showing the price and a short description about the plan (shown on the next page).
